*FOR IMMEDIATE RELEASE  
July 15, 2004*

Structural engineering firm, **DM Berg Consultants'** has recently been working on several projects at the Fleet Center preparing for the Democratic National Convention. Projects include structural design for the NBC, FOX, and CNN media booths; structural design of media sign brackets for CSPAN, FOX and ABC; and structural design of temporary stadium modifications including concrete seating unit cuts at the hockey tunnels for podium entrances; concrete wall cuts for media access to interview platforms, review of loading on the mechanical floor for temporary electrical units, and new cmu walls for locker rooms on the third floor.

Additionally, **DM Berg** is currently working on Harrison Commons in Boston with Bruner/Cott & Associates; South Boston Harbor Academy Charter School with Arrowstreet, Inc.; Charleston Lofts in Everett with Neshamkin French Architects, Inc.; Lawrence Mills in Lowell with The Architectural Team, Inc.; and Beacon Hill Residences in Boston with CBT Architects.
