

# FLAGG-ADAMS MIDDLE SCHOOL

## HOLLISTON, MASSACHUSETTS

- OWNER

Town of Holliston

- ARCHITECT

Design Partnership of Cambridge, Inc.

- CONSTRUCTION COST

\$14,800,000

- CONSTRUCTION MANAGER

Gilbane Building Company

### PROJECT DESCRIPTION

Two additions on opposite ends of the existing concrete framed middle school created a larger and more user friendly building.

Structural steel framing and steel joists with concrete deck formed the gravity system of this new structure. Lateral loads are resisted by reinforced masonry shear walls.

New reinforced masonry piers were used to reinforce the existing concrete spandrel framing to allow a new brick façade at the upper level.

Within the existing building, a new concrete seating bowl for the auditorium was created. Additionally, the main entrance was opened up to form a 2-story atrium. Exposed structural steel framing was used to reinforce the existing concrete slabs and provide a colorful industrial look to the inside of the lobby.
